Dear Hiring Executive:

I am interested in exploring employment opportunities with your organization. The accompanying resume will provide you with details as to my experience, education, skills and abilities. The specific position I am applying for is: Entry Level Software Developer

I believe my life's purpose is to create solutions that eliminate high-volume/low-impact tasks so that people may pursue the high-impact tasks they were made for. I love software development because it equips me to fulfill this purpose.

Simplicity, reliability, and integrity are traits I value highly in both people and products. These traits are deceptively difficult to produce but worth the effort. I possess a proven record of business-related accomplishments related to creating such solutions.

At your convenience, I would appreciate the opportunity to speak with you to review my qualifications and discuss my ability to assist your organization in meeting its goals and objectives.

Thank you very much for your time and consideration. I look forward to hearing from you soon.

Sincerely,

Wesley Hedrick
